## SUPPORT PROGRAMS FOR PATIENTS UNDERGOING TREATMENT FOR ENDOMETRIAL CANCER

Patients with endometrial cancer face many **challenges along their treatment journey**. Staying **educated** and having **a strong support network** can help patients and caregivers manage their cancer, physician visits, and other life changes that come with a cancer diagnosis.

Enclosed are several **national and/or local programs** that may offer support.

## ORGANIZATIONS OFFERING SUPPORT for ENDOMETRIAL CANCER PATIENTS

### ► Facing Our Risk of Cancer Empowered

Offers one-on-one peer support, group support meetings and events, a peer-run helpline, clinical trial matching, and educational tools

 [www.facingourrisk.org](http://www.facingourrisk.org)  866.288.7475

### ► Foundation for Women's Cancer

- Provides free, downloadable educational materials in three languages and interactive webinars and educational courses on the five gynecologic cancers and associated topics
- Maintains referral database of gynecologic oncologists
- Raises and distributes critical funds to researchers and early investigators to help improve gynecologic cancer patient outcomes
